AUNETIC
GUIDING GOVERNANCE

One step ahead:

Automate regulatory compliance

How do you ensure not missing out on relevant regulatory changes?

How do you assess and act on these changes to stay compliant?

How do you keep track of compliance measures within the organization?

"LARI is perfectly adapted to our needs. By automating monitoring, the technology helps with daily work, saves time, reduces risk and is attractive in terms of price and quality".

Senior Legal Counsel, Generali

AUNETIC
GUIDING GOVERNANCE

In today's dynamic political arena, staying ahead of the curve isn't just an advantage – it's essential. Our Governmental Affairs solution empowers you to be a part of the politics of tomorrow. Experience the future of political intelligence with our automated monitoring that keeps you informed of political deals, government initiatives, and all relevant developments.

Automated monitoring of all political, regulatory, and legal developments with our customizable, interactive dashboards for overview and tracking.

AI supported identification of risks and required actions, assignment of responsibilities and deadline management within our unified platform.

Constantly updated development reports to stakeholders ensuring transparency.
